

# Roots n' Wings 4 Kids

Words 4 parents & kids 2 Live & Fly By

Another wonderful book by Doryan Dean

Roots n' Wings 4 Kids is a book made especially for children and adults to enjoy together. Twenty-five words are presented in six languages in an easy to read, colorful format, with questions that kids and adults can explore together. Roots n' Wings prompts us to share our most important thoughts with those we spend time with. For example, a question from the book asks, "Imagine yourself in the most playful situation you can think of. Where are you? What are you doing? Who is there? Children can explore their answers with you, while you also discover and share your answers with them. Roots n' Wings words, questions, art games, and products, are meant to facilitate a deeper process of discovery than usual. Wherever you are from, whichever language or religion-Roots n' Wings 4 Kids is one of the few books to make the transition from the childhood bookshelf to the adult one. Philanthropists and artists and from around the globe are contributing most of the art in this book-80% of which goes to fund creative earth/spirit experiences for children 5 to 95.
